Quick Start Guide to: Getting started with a basic D2L course

The most basic D2L course site provides content and grades for your students. The 5 steps below will guide you through obtaining a D2L course site, enrolling members of your teaching team, adding content and configuring the gradebook for your new D2L course site. See the resources at the end of this document to expand your D2L course site.

Step 1: Request a D2L course site at: https://csr.d2l.arizona.edu. Your D2L course will be created and you will have access immediately to the course site.

Step 2: To access your D2L course site, log in using your UA NetID and Password at: https://d2l.arizona.edu/

Step 3: Enroll members of your teaching team in your D2L course site. For more information visit our help page at: http://help.d2l.arizona.edu/EnrollingParticipants

Step 4: Add your desired Content Module(s), Topics and Activities. For more information about adding and creating Content materials and activities see our **Adding/Creating Content** Quick Start Guide at: http://help.d2l.arizona.edu/AddCreateContent .

Step 5: Set up your D2L grade book. For further assistance see the **Setting up a Gradebook** Quick Start Guide at: http://help.d2l.arizona.edu/SetupGradebook .
